CAPOEIRA 360°

This year we are making a full circle around capoeira. Whether you are looking to enhance your physical capabilities, learn new skills, or simply enjoy the rhythm and culture of capoeira, this summer camp promises an enriching experience that will leave you inspired and motivated. Let's train, learn, and grow together in the spirit of capoeira!

This summer we aim to cultivate a capoeirista who is versatile, knowledgeable, and skilled across all aspects of capoeira

Program

MOBILITY AND CONDITIONING sessions will focus on improving body flexibility, strength, and endurance, essential for mastering complex movements.

ACROBATICS workshops will be dedicated to acrobatics in capoeira, helping participants learn and refine their techniques as well as creating awareness on characteristics of your body that are essential for mastering various movements.

MUSIC AND CULTURE in capoeira are deeply intertwined, serving as the heartbeat of this Afro-Brazilian martial art. Through music classes, rodas and movies we will be teaching various aspects that include different rhythms, songs and cultural expressions.

The game of capoeira includes all above, but also much more. In **CAPOEIRA CLASSES** we will be working on movements, techniques, different games and possibilities capoeira offers.
